Instructions

1. Battery charge

Wall socket: takes 4 hours to fully charge the device

From a PC (via USB port): takes 9 hours to fully charge the device

2. On/Off switch

- Push the power button for roughly 5 seconds to turn on the device
- Push the power button for roughly 5 seconds to turn off the device
- Power saving mode: if you haven't used the device for over 10 minutes, it will automatically switch to power saving mode. To turn it back on, press the power button for just a second

3. Resetting the Pocket Wi-Fi

If you are experiencing any technical issues with your device, we recommend you reset it in the following way:

- Turn off the Wi-Fi by pressing the power button for 5 seconds
- Slide off the back side battery lid
- Take out the battery
- Wait 15 minutes
- Setup the battery and slide back the battery lid
- Turn on the device by pressing the power button for 5 seconds

Caution

- You **must not** open the device if it is not necessary as this may cause damage
- You **must not** remove the SIM Card from the device
- You **must not** use the device outside of Japan as you will be charged extra high roaming fee

Return Pocket Wi-Fi

You will receive your device together with a prepaid return envelope, AC adapter and a USB cable. Once you are done using it, please place the device, together with the adapter and the cable inside the envelope and drop it off at any mailbox in Japan. The mailboxes are very easy to find anywhere in Japan. You can also locate them at the airports, before the security gates.
